

DD/R-499-63

2 April 1963

MEMORANDUM FOR: Assistant Director for ELINT  
Assistant Director for Special Activities

SUBJECT: DIA

1. In view of the considerable expression of concern about relationships with the DIA, at least from some parts of the Agency, the Director has requested specific examples and instances of the types of things that probably should be worked out at policy levels. While to my knowledge within the DD/R we have not had any particular difficulties or grievances, it is desired that we make a response.

2. The attached specific questions have been routed all over the Agency, so I will appreciate your giving me specific answers to these questions including negative responses by Friday, 5 April. It may be that specific problems are anticipated even though nothing has developed between us and the DIA thus far.

  
Executive Assistant  
Deputy Director (Research)
